

**REMARKS**

This application is being filed as a U.S. National Phase Application pursuant to 35 U.S.C. 371 of International Application No. PCT/GB2003/003966, filed on September 12, 2003, claiming benefit of priority of U.S. Provisional Application No. 60/413,685, filed on September 26, 2002, and U.S. Provisional Application No. 60/417,688, filed on October 10, 2002

The foregoing amendment to the specification is made in order provide a cross-reference to the international application and the priority applications. Further, the above amendment adds an abstract at the end of the specification and removes multiple dependencies from the claims of the application. In addition, claims 13-15 of the International application were written in a format that constitutes non-statutory subject matter in the United States. These claims have be canceled. No new matter is introduced by these amendments.

The Examiner is invited to contact the undersigned at the telephone number listed below if there are any questions with respect to this submission.
